"Unleash Your Creativity!"

Project.1. Create your own comic book with an exciting story and vibrant illustrations.

Here's a story idea to get you started:

Rama to the Rescue

- Choose your favorite characters and settings
- Add speech bubbles and captions
- Showcase your artistic skills!

Project.2. Diary Entry

"Find Your Friend in Diary"

Make Diary your friend. Write down your thoughts, experiences, and feelings **every night** .

Reflect on your day, and let your words flow freely.

- Explore your thoughts and emotions truly.
-

Holiday Homework – Class 6 - Science

Dear Students,

As part of your holiday homework, you are required to make a working or non-working model of Water Harvesting. This activity will help you understand the importance of conserving water and how rainwater can be collected and reused effectively.

Instructions:

- Use easily available or recycled materials.
 - Be creative and clear in your presentation.
 - Label the parts of your model.
 - Prepare a short explanation (oral or written) describing how your model works and why water harvesting is important.
 - Prepare a short explanation (oral or written) describing how your model works and why water harvesting is important.
-
